DDI-2565-65

MEMORANDUM FOR: Deputy Director for Intelligence

SUBJECT: Material Prepared for the Congress

1. As you will recall, as a result of our arrangements with you, certain officers of your staff were designated as points of contact for this Office in handling inquiries from congressional committees and individual members of the Congress. In recent weeks, we have had an increasing number of these inquiries, most of them from our subcommittee staffs or from the members themselves.

2. I take pleasure in noting for the record the excellence of the DD/I support and the fact that the DD/I personnel who have serviced our requests have done so willingly and with dispatch. The papers which have been provided have been well written and responsive. The assistance given has been extremely helpful to the Agency's relationships with the Hill and is most appreciated.

3. I am sure that many of the people who assist in servicing these requests are unknown to this Office; therefore, I am unable to identify them. However, I do want to take particular note of the assistance given by [redacted]

[redacted] Please convey to all concerned our appreciation of their efforts.

4. The performance of [redacted] and crew in preparing for the Senate Foreign Relations hearing on the [redacted] [redacted] is in a somewhat different category but is also to be highly commended.
